### QUESTIONS

Question 1: Today, during the on-site inspection of the pump stations, the MWS employees who take care of them showed us Rolling Hills P. S. # 1 instead of # 2 because they said it was the one needing rehabilitation. The bid documents call for P. S. # 2 to be rehabilitated. Will you verify which one?

Answer: Rolling Hills Pump Station #1 is correct. It is 5 ft diameter and 10 ft deep. See revised Proposal Form attached.

- Question 2: Is a Performance and Payment Bond required for RFP 10-26?  
Answer: Yes. See attached Performance and Payment Bond Forms
- Question 3: There is a difference in the vertical feet shown sheet 3 of 23 “Manhole Tabulation Sheet” and the Proposal Form. We need to know if this project is awarded/paid by vertical foot price or a lump sum job. And what vertical foot numbers do we use?  
Answer: Proposers are to bid this job using the vertical feet stated on the Proposal Form. The Metro Water Services inspector and the Contractor will physically measure each structure for payment. The Contractor will be paid for vertical feet rehabilitated. Metro Water Services has always provide additional quantities on the Proposal Form too allow for errors inherent in record drawings for manhole depths/diameters and to provide for additional manholes that may be discovered during the execution of the work that require rehabilitation.
- Question 4: Is a bid bond required? I did not see anything in the bid documents and just want to make sure.  
Answer: A bid Bond is not required.
- Question 5: VII. Taxes. Metro shall not be responsible for any taxes that are imposed on Contractor. Furthermore, CONTRACTOR understands that it cannot claim exemption from taxes by virtue of any exemption that is provided to METRO. This statement reads like we will not be provided with tax exemption status from the City? Or where can we get once awarded the bid?  
Answer: You can request a Tax Exempt form from Purchasing.
